SUPPORTING THE DREAMS OF THE DOERS

As your organisation continues to increase its range of services to internal and external users across multiple channels such as mobile, social and cloud technologies, an effective identity management solution becomes an absolute necessity rather than a nice-to-have.

AS SERVICES EVOLVE, ACCESS TO A BREADTH OF USER INFORMATION IS REQUIRED, INCLUDING CONTACT DETAILS, PREFERENCES AND ADDRESS BOOKS. WITH SO MUCH OF THIS INFORMATION BEING PRIVATE OR CONFIDENTIAL, IT IS ESSENTIAL TO IMPLEMENT A SYSTEM OF ACCESS CONTROL TO PROTECT YOUR ORGANISATION, YOUR USERS AND YOUR DIGITAL ASSETS.

SECURE
YOUR
IDENTITY

INTRODUCING NETSURIT'S SECURE YOUR IDENTITY.

Netsurit's **Secure your Identity** solution enables automated user lifecycle management across HR systems both on-premises and in the cloud. It also implements functionality in EMS to enhance user administration and secure access to data and services.

In a nutshell, the Netsurit solution protects your users' identities, data and services whilst helping you become more compliant with governance requirements.

YOU NEED NETSURIT'S SECURE YOUR IDENTITY SOLUTION WHEN YOU:

- Require improved security of data and services.
- Need to integrate user and employee identity across on-premises and cloud services.
- Need to improve compliance with governance requirements.
- Have purchased Office 365 and/or EMS and are not consuming EMS services.
- Have identified a requirement to better manage user accounts and identity lifecycles.
- Need to strengthen controls on who may access applications or data.
- Need to link user access to organizational roles.
- Want to reduce user administration cost and effort.

SUCCESS STORY:

Challenge:
A major Life Insurance Company required an automated user lifecycle management solution across all services, based on changes to employee records in the HR system, in order to reduce the effort to ensure updated access and employee information as well as improve the quality of data and enhance security protocols.

Solution:
The company chose Netsurits' team of expert engineers to implement EMS E3 with SSPR, MFA and conditional access.

Result:
- Enhanced security of data and access to systems.
- Improved quality of employee data.
- Automated synchronization of identities to required major systems.

THE NETSURIT DIFFERENCE.

At Netsurit, our mantra is **"supporting the dreams of doers."** It is imbued into our company values and guides the way we think, act and treat our customers. We see IT as the enabler virtually every businessperson relies on each day as they work towards achieving their goals and aspirations.

And because data, sensitive information and intellectual property is so important to the success of our customers, we take its safety and protection very seriously indeed.

We passionately support the idea that we are providers of an ecosystem that helps our partners, our customers and our own teams to safely realize and actualize their full potential.

At the end of the day, we believe it's the dreamers with the tools to do things who will change the world for good.
