

Job Title: Junior Security Analyst

Job Type: Full-Time

Location: Johannesburg

Job Description:

We are seeking a motivated and enthusiastic Junior Security Analyst to join our dynamic team. The successful candidate will be responsible for assisting in the implementation and maintenance of security measures to protect the company's information systems and data assets.

Key Responsibilities:

- Monitor incoming event queues for potential security incidents using Azure Sentinel per operational procedures.
- Perform initial investigation and triage of potential incidents and escalate or close Incidents as applicable.
- Use available SOC tools for historical analysis purposes as necessary for detected Alerts/Incidents; for example, historical searches using Azure Sentinel Log Analytics.
- Assist in monitoring the company's network and systems for security breaches and potential threats.
- Support the development, implementation, and maintenance of security policies, procedures, and controls.
- Assist in investigating security incidents and incidents related to data breaches.
- Provide support for security-related projects and initiatives.
- Assist in maintaining security tools and systems, including firewalls, intrusion detection systems, and anti-virus software.
- Document investigation results, ensuring relevant details are passed to the Secondary Analysts for final event analysis.

Qualifications:

- Basic knowledge of cybersecurity principles and practices.
- Minimum 5 years' experience in infrastructure and support
