

## Mid-Level Power Platform and SharePoint Developer

Job Summary: We are seeking a talented and experienced mid-level Power Platform and SharePoint Developer to join our growing team. In this role, you will be responsible for developing, designing, and implementing business solutions using Microsoft Power Platform and SharePoint technologies.

### Key Responsibilities:

- Develop, design, and deploy Microsoft Power Platform and SharePoint solutions.
- Customize and configure SharePoint sites, lists and libraries to meet business requirements
- Create Power Apps, Power Automate flows and Power BI reports.
- Collaborate with cross-functional teams to understand business requirements and translate them into technical solutions
- Troubleshoot and resolve issues related to Power Platform and SharePoint applications
- Provide technical guidance to other team members.
- Stay current with the latest Microsoft Power Platform and SharePoint
- Stay current with the latest Microsoft Power Platform and SharePoint technologies and best practices

### Requirements:

- Minimum of 3 years of experience with Microsoft Power Platform and SharePoint development.
- Experience with Power Apps, Power Automate, Power BI, SharePoint Framework (SPFx) and SharePoint Online.
- Strong understanding of SharePoint architecture and configuration
- Experience working with JavaScript, HTML, and CSS
- Strong analytical and problem-solving skills.
- Excellent Communication and Collaboration skills
- Ability to work independently and as part of a team
- Ability to mentor juniors in the team.
